EDUCATION

Netaji Subhas Institute of Technology (NSIT), Delhi University

Bachelor of Engineering in Information Technology, GPA: 7.56

New Delhi, India

Aug. 2018 – May 2022

EXPERIENCE

Software Engineer II

July 2022 – Present

Ultimate Kronos Group (UKG)

Noida, Uttar Pradesh, India (Hybrid)

- Joined UKG as a new grad and currently working as a Full Stack Engineer for the product, UKG Ready at Core Frameworks Team.
- Developed and maintained product-wide UI common components, ensured consistency, scalability and high performance across production environments.
- Supervised the UI/UX with ally for team owned core tools such as Custom Forms, Employee Checklists and Dashboards, enhanced usability and user satisfaction.
- Collaborated with leadership, UI/UX teams, and product managers to align priorities and ensure timely, high-quality deliveries.
- Mentored SDE-I and SDE-II engineers on UI development best practices and fostered collaboration on common components.
- Managed the bug triage process proactively, ensuring prompt identification, routing, and resolution to maintain a stable and bug-free codebase.
- Balanced development efforts with a focus on frontend (70%) and backend (30%) work, contributed to both UI enhancements and backend integrations.
- Enhanced test coverage via UI automation using Selenium and Jest, boosting code coverage from 50% to 90% over two years.
- Technologies: React.js, JavaScript, TypeScript, Java, HTML, SCSS, Selenium, Jest.

PROJECTS

ESP32 Smart Air Purifier | C++, React.js

- Built an IoT-enabled air purifier with ESP32 micro controller that monitors PM1.0, PM2.5, and PM10 particulate matter in real-time.
- Implemented fan speed control based on air quality and mode selection, a mobile-friendly web dashboard with 12-hour history charts and over-the-air (OTA) firmware updates.
- Used ESP32-C6, PMS5003 PM sensor, SSD1306 OLED display and WebSocket communication.

SplitPrint | React.js

- Built a lightweight utility that splits an uploaded PDF into odd and even pages for manual duplex printing on printers without native duplex support.

Shravik | Flutter, Firebase

- Built a geolocation based multilingual matchmaking social platform for employers and blue-collar migrant workers affected by the Covid-19 Pandemic for the NSIT Innovision Hackathon.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Java, HTML, CSS/SCSS

Technologies: React.js, React Native, Spring Boot, Selenium, Playwright

Developer Tools: Github, Jira, VS Code, IntelliJ, Kibana, Claude Code
